GLASS VERANDAS

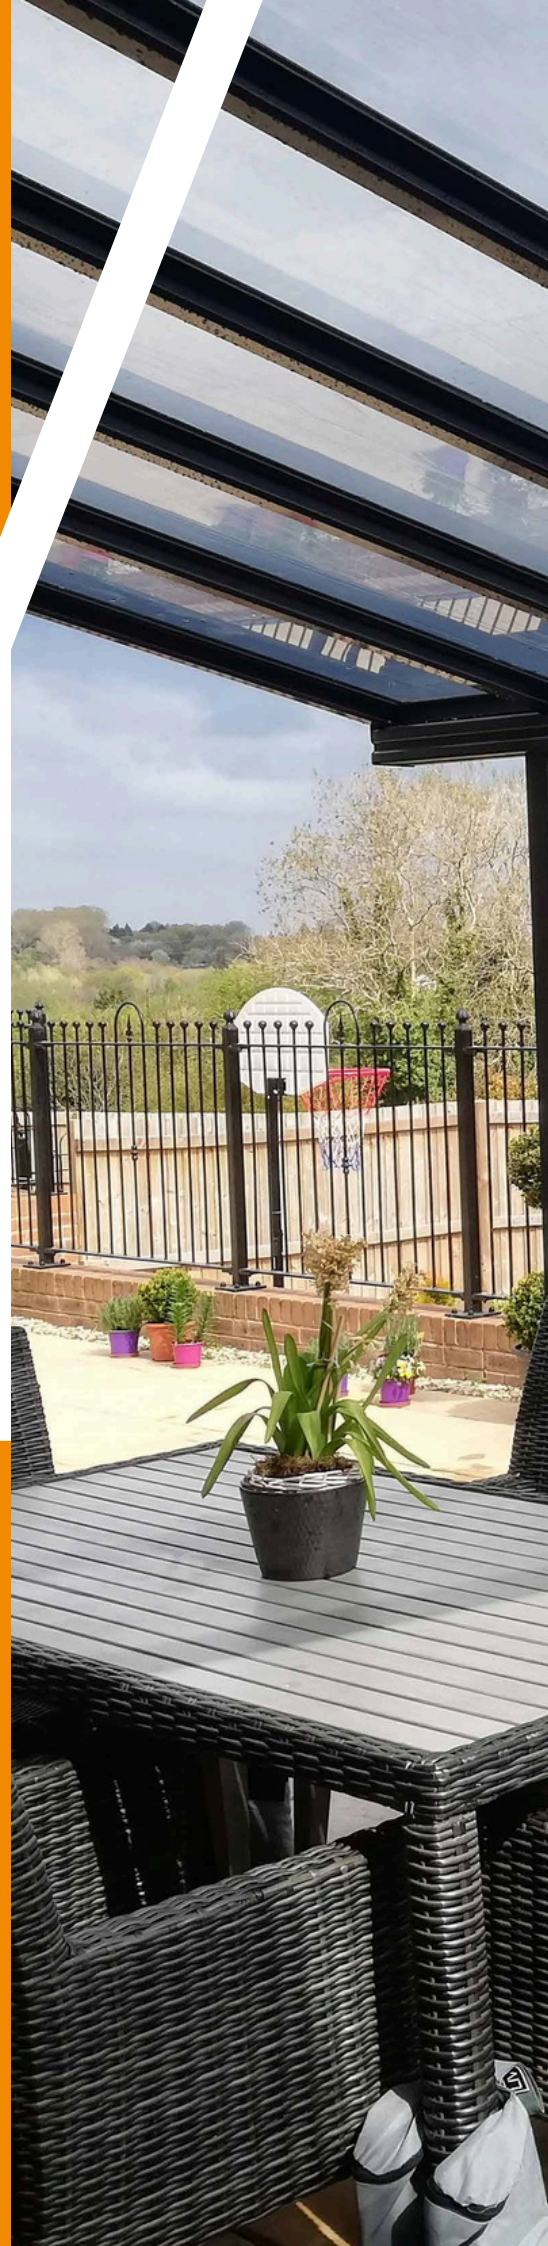

- Aluminium veranda 6 - Aluminium veranda Xtra - Aluminium veranda Free Mono - Aluminium veranda Free Apex - Riverside Aluminium verand.

Elevate your home with our Aluminium Glass Verandas, a fusion of elegance and practicality that not only enhances your living experience but also adds significant value to your property. Crafted with high-quality aluminium and a sophisticated glass roof system, these verandas are more than just an outdoor feature; they're a smart investment.

The sleek design of our verandas not only complements your home aesthetically but also contributes to its financial value. Homeowners find that adding a durable and stylish outdoor living space is a strategic move in boosting property appeal and market worth. The noise-reducing glass roof ensures a peaceful environment, making it an attractive feature for potential buyers or for your long-term enjoyment.

Moreover, the glass roofing invites natural light while offering protection from the elements, ensuring your veranda is a versatile, year-round space. Whether for personal relaxation or entertaining guests, our Aluminium Glass Verandas offer a low-maintenance, elegant solution that extends your living space outdoors. Invest in a veranda today and enjoy the dual benefits of a visual upgrade and a wise financial decision for your home.

Aluminium Veranda 6

A Revolutionary, Elegant Veranda System – Two Gutter Options Available

The Aluminium veranda 6 system is ideal for garden verandas and canopies, now available with Traditional and Contemporary gutter profiles to suit different architectural styles. Both options provide durability, weather resistance, and a seamless finish.

- **Traditional Gutter** – Classic, sculpted lines complement period properties and heritage-style homes, offering timeless elegance with modern aluminium construction.
- **Contemporary Gutter** – Clean, minimalist lines create a sleek, modern aesthetic, perfect for contemporary architecture and outdoor living spaces.

Whichever style you choose, Aluminium veranda 6 delivers a refined, high-quality finish with exceptional performance.

CARPORTS & CANOPIES

- Aluminium veranda 16 - Aluminium
veranda 35

Our range of cost-effective canopy and carport systems offer durable, stylish protection for a variety of spaces. Designed with high-quality polycarbonate roofing panels in different thicknesses, models like the Aluminium veranda 16 and Aluminium veranda 35 provide the perfect balance of strength and aesthetics.

The Aluminium veranda 16 and 35, with their 16mm and 35mm polycarbonate roofing panels respectively, offer robust shelter and durability. These systems are perfect for those seeking reliable and stylish canopy or carport solutions. The polycarbonate panels ensure a balance of light transmission and protection, making them practical for all weather conditions.

Discover the perfect blend of functionality and elegance with our aluminium canopies and carports, specifically designed to enhance your space with their unique features and durable construction. For a glass roof option available as a wall-mounted or free-standing carport, our Simplicity Free system can also be specified.

UPGRADES

Victorian

The Victorian Upgrade transforms the Aluminium veranda range into ornate and beautiful shade and shelter structures which enhance the exterior of any building.

The Victorian Package has been our most popular upgrade, with the design features allowing for a true complimentary feel to both modern and traditional homes, and even commercial properties alike.

Amongst the optional upgrades we provide are the Victorian Gallows Brackets and Base Castings which are colour matched in our powder coat finish to allow for seamless integration.

Features

- Decorative, Victorian style post upgrade which includes Post Sleeves and Gallows Brackets Ideal for domestic use to blend in with traditional style dwellings
- Provides a covered area that is in keeping with traditional or historical building styles
- Can be coloured to any standard colour to match the canopy and surrounding area
- Manufactured from robust aluminium

Infrared Heating

Elevate outdoor living projects with our California Heaters, a pinnacle of style and functionality. This page has all the information you need on the California Heating System – including colour options and technical information.

Features ☆

- **Versatile Warmth:** Enjoy instant, powerful, and comfortable heat in various settings, from home to commercial areas.
- **Stylish Design:** Enhance outdoor spaces with the sleek and contemporary aesthetics.
- **Silent Operation:** Experience quiet and efficient heating without disrupting the ambient environment.
- **Flexible Placement:** Wall-mount or use a portable stand for adaptable positioning, ensuring optimal comfort.
- **Energy Efficiency:** Achieve environmentally friendly warmth, with mirror aluminium reflectors minimising heat loss.

IMAGE SHOWING OUR CALIFORNIA HEATING SYSTEM IN POSITION B

RGBW Lighting

Add style and function to your veranda, canopy, or glass room with our Integrated RGBW LED Lighting System. This sleek upgrade extends your enjoyment of outdoor spaces into the evening.

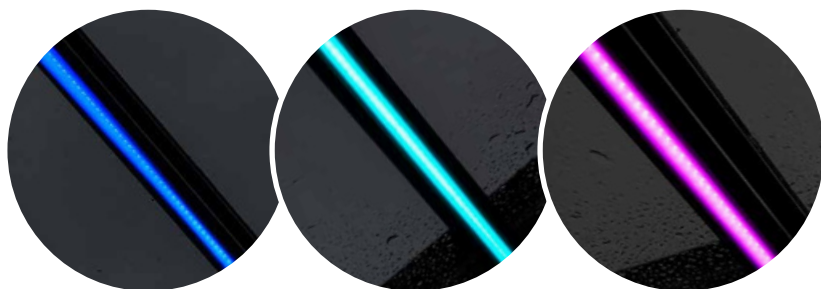

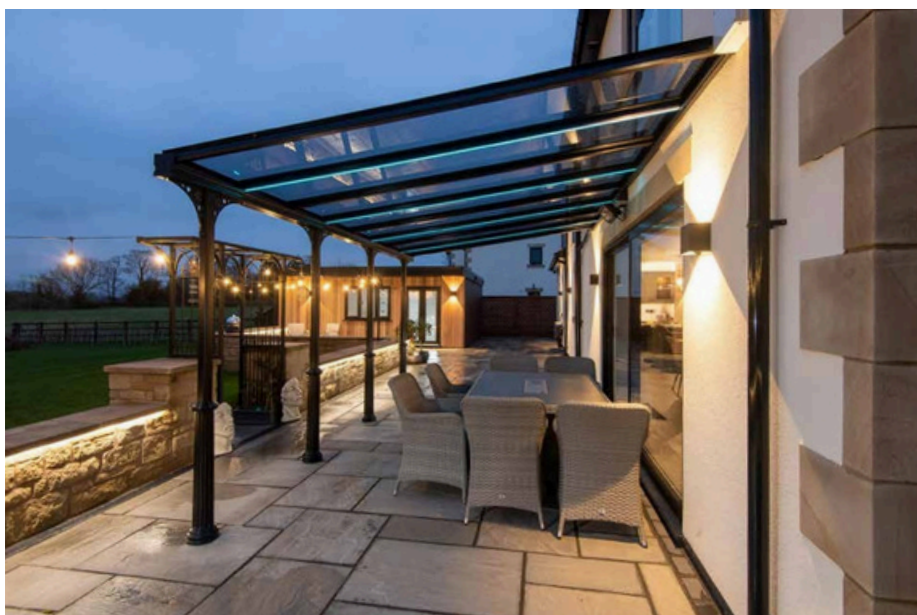

With a full range of colour and white light settings, you can tailor the atmosphere to suit any mood or occasion.

The discreetly installed LED strips offer excellent illumination with a clean, modern finish. Installation must be completed by a qualified electrician.

IMAGE SHOWING THE RGBW LIGHTING AT NIGHT
□

Features ☆

- Integrated into the system seamlessly, our lighting system merges into the aesthetic when not in use.
- All wires are hidden within the canopy frame for a neat, tidy appearance.
- Enables users to use their canopy in the early morning or late evenings, when it may otherwise be too dark.
- The lights are fitted to the undersides of the roof to light up the area underneath the structure.
- Operated by remote control for convenience.

EXAMPLE LIGHTING COLOURS

LED Spotlights

Bring endless light to your veranda, canopy, or glass room installations with the use of our Spotlight Upgrade when you order one of our Aluminium veranda Xtra or Sim Free models. Providing a contemporary look, these will be a great addition to any outdoor living space project.

Features ☆

- Our Spotlight systems are integrated into the veranda, enhancing the aesthetic while in use and almost unnoticeable when turned off
- All wires are hidden within the veranda frame for a seamless appearance
- The lights are Integrated into the bolster bar to give it a sleek finish
- Operated by remote control for convenience
- Enable customers to use their veranda in the early morning or late evenings, when it would usually be too dark

PRIVACY SCREEN FRAME ADAPTER

Privacy Screens

Our stylish and durable privacy screens provide enhanced seclusion, wind protection, and aesthetic appeal, making them ideal for patios, terraces, and commercial outdoor spaces.

Designed for longevity, they require minimal maintenance and seamlessly integrate into any setting, offering both functionality and a sleek, modern finish.

Features ☆

- **Durable Construction:** Built to withstand the elements.
- **Modern Design:** Sleek and stylish for any setting.
- **Enhanced Privacy:** Creates a secluded, comfortable space.
- **Versatile Applications:** Suitable for various outdoor environments.
- **Low Maintenance:** Easy to clean and long-lasting.
- **Fast Installation:** Quick and hassle-free setup.

Frames

Our high-quality aluminium frames provide a strong, durable foundation for outdoor structures, offering both **Cheese Frames (top frames)** and **Front & Side Fixed Panels** to suit a wide range of installation needs.

Designed for versatility, they ensure a sleek, modern appearance while delivering excellent weather resistance and long-lasting performance, even in challenging environments.

Ideal for canopies, verandas, glass rooms, and other outdoor installations, these frames are engineered for structural strength, visual appeal, and ease of installation.

With minimal maintenance required, they deliver lasting practicality and contemporary style for both commercial and residential spaces.

Features ☆

- **Cheese Frames (Top Frames):** Provides a strong, secure overhead structure.
- **Front & Side Fixed Panels:** Enhances stability and enclosure options.
- **Robust Aluminium Construction:** Strong, lightweight, and highly durable.
- **Weather Resistant:** Built to withstand the elements year-round.
- **Low Maintenance:** Requires minimal upkeep for long-term use.
- **Easy Installation:** Designed for quick and efficient assembly.

Goal Posts

Our aluminium goal post upgrade enhances the strength and stability of outdoor structures, providing essential support for larger installations like verandas and canopies. Engineered for durability, it ensures structural integrity in all weather conditions. Made from corrosion-resistant aluminium, it requires minimal maintenance while maintaining a sleek, modern look.

Designed for seamless integration, it offers both practical reinforcement and an aesthetically refined finish. Ideal for commercial and residential applications, this upgrade delivers long-lasting reliability without compromising on style.

Features ☆

- **Enhanced Structural Support:** Provides additional strength for larger spans.
- **Durable Aluminium Construction:** Strong, lightweight, and corrosion-resistant.
- **Weather Resistant:** Built to withstand the elements year-round.
- **Modern Aesthetic:** Sleek design complements any outdoor space.
- **Low Maintenance:** Requires minimal upkeep for long-term reliability.
- **Easy Installation:** Designed for quick and secure assembly.

IMAGE SHOWING GOAL POST

Glazing

Our premium roof glazing options enhance outdoor structures with improved light transmission, insulation, and durability. We offer a variety of glazing choices, including clear and tinted glass options as well as self-cleaning glass for a low- maintenance, high-performance solution.

For a cost-effective alternative, our clear and tinted polycarbonate options, including Heat shield technology, provide excellent solar control while maintaining a sleek, modern look.

Features ☆

- **Versatile Glazing Options:** Choose from clear or tinted glass, self cleaning glass, or advanced polycarbonate options including Heat shield for enhanced solar control.
- **Effective Temperature Control:** Helps manage heat build-up beneath the structure for a more comfortable environment all year round.
- **Enhanced Light Transmission:** Maximises natural light while reducing glare.
- **Weather Resistant:** Designed to withstand harsh conditions.
- **Modern Aesthetic:** Sleek, high quality finish for any outdoor space.
- **Low Maintenance:** Durable and easy to clean for long-lasting performance.

IMAGES ABOVE DISPLAY
MANUAL UNDERBLIND ON
SIMPLICITY FREE APEX D

Pleated Under Blind

Our Pleated Under Blind offers offer a premium solution for stylish and practical sun control, discreetly integrated within the roof bars of your veranda. When not in use, the pleated fabric neatly retracts into the roof structure, completely hidden from view. This unobtrusive design enhances the clean, modern appearance of your veranda while also protecting the blind from dirt and weather, ensuring it stays looking great for longer.

Designed to fit seamlessly within the Aluminium veranda 6 and 16 systems – and compatible with all veranda systems – these under blinds suit aluminium verandas in both domestic and commercial settings. Whether it's a garden veranda or a commercial outdoor cover, this upgrade adds value and comfort.

When deployed, the blinds offer highly effective sun shading - helping to reduce heat and glare while allowing you to enjoy your outdoor

space in greater comfort. The system operates with a manual wand for easy, central control.

Perfect for homeowners and businesses seeking a contemporary veranda solution with added functionality, our integrated underblinds provide the best of both worlds: clean lines and minimalist style, with reliable and adjustable shading at your fingertips.

Vertical Roller Blind (Manual or Auto)

Enhance your veranda, canopy, or carport with our high-performance Vertical Roller Blind system - available in both manual and automatic operation. Combining sleek design with practical benefits, this versatile solution offers excellent control over light, heat, and privacy, making it ideal for both residential and commercial outdoor spaces.

Constructed using premium Soltis 92 Screen Material, the Roller Blind is engineered for strength, durability, and weather resistance. Its technical fabric maintains a smooth, taut appearance at all times, effectively reducing glare and heat on sunny days while adding stability and protection in breezy conditions.

The manual option features a heavy-duty spring tension system, allowing the blind to move smoothly and remain perfectly balanced - no need for stops or cords. Alternatively, the automatic version provides effortless control at the push of a button, making it a perfect upgrade for modern living.

Whether you're creating a shaded patio, a private outdoor area, or a comfortable commercial space, our Vertical Roller Blind blends style with performance, helping you make the most of your covered area in all weather conditions.

5 PROFILE OPTIONS

The A-Fence system offers a range of slat options to cater to your specific design preferences. Here are the different slat options available for A-Fence:

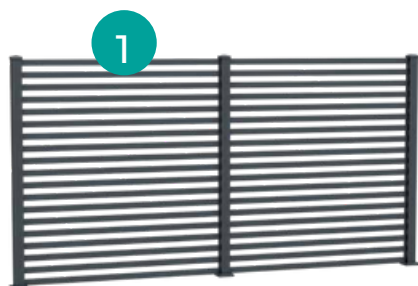

50mm Slat: This slat size provides a sleek and modern look to your A-Fence installation. It offers a narrower profile, allowing for a more open and contemporary aesthetic.

100mm Slat: The 100mm slat option offers a wider profile, adding a bold and substantial appearance to your A-Fence system. It can create a more solid and private barrier while still maintaining a stylish design.

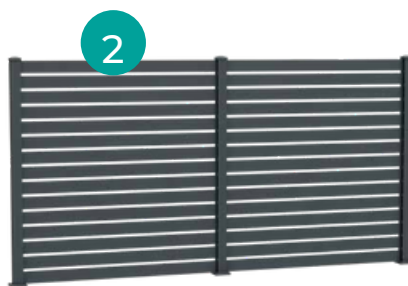

150mm Slat: If you're looking for a slat size that strikes a balance between openness and privacy, the 150mm slat is a great choice. It offers a medium width profile, allowing for a combination of visibility and seclusion.

120mm Interlocking Board: The 120mm interlocking board profile offers seamless integration and uninterrupted appearance. These boards interlock with each other, creating a smooth and continuous surface without any visible gaps.

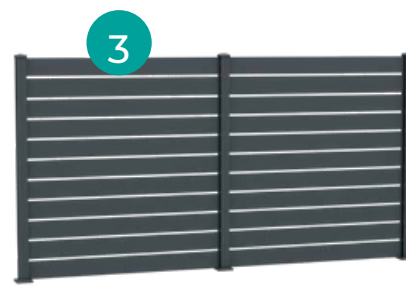

240mm Interlocking Jumbo Board: Meet our latest innovation to A-Fence range. The new 'Jumbo Board' is a sophisticated Interlocking board profile designed to elevate privacy and offer a unique aesthetic for taller fence profiles and can also be used as a privacy screen.

Gate Profiles

Whether you're a domestic customer looking to enhance the security and charm of your home or a commercial customer seeking a reliable and stylish solution for your premises, our Gate Profiles are here to enhance your outdoor space.

These gate profiles are specifically designed to seamlessly integrate into our A-Fence system but can be specified separately, making an ideal solution for driveways, gardens, and other outdoor spaces that require secure access.

Crafted from sturdy aluminium and finished with a durable powder-coat, our gate profiles are built to withstand the test of time and weather.

With a range of design options available, you have the freedom to customise and create the perfect gate for your needs. Our gate profiles come in a textured Anthracite Grey 7016 or Jet Black 9005 finish, with the option for bespoke colours upon request.

Our gate profiles come with a generous 10-year guarantee and minimum 60 year life expectancy, providing you with peace of mind and confidence in your investment.

Concrete Post Adapters

Our concrete post adapters are meticulously crafted to seamlessly integrate the A-Fence system with existing concrete posts, providing a hassle-free and reliable fencing upgrade. These adapters are designed with durability in mind, ensuring they withstand the test of time and weather conditions.

With our concrete post adapters, you can effortlessly enhance the aesthetic appeal and functionality of your garden or commercial space. They offer a convenient solution for those who already have concrete posts in place, eliminating the need for extensive modifications or post replacement.
